HOW CAN I GET THE MOST VALUE OUT OF MY OPEN DAYS VISITS?

Don’t wander aimlessly…. Try the following:

- Obtain an Open Day Guide beforehand (e.g. from websites like [www.deakin.edu.au/openday](http://www.deakin.edu.au/openday), or [www.openday.unimelb.edu.au](http://www.openday.unimelb.edu.au)). Some hard copies are available in the careers room. See Ms Miller
- Plan to be at Open Day when relevant information sessions are conducted
- Allow sufficient time for your visit; two hours or so would be advisable
- Speak to staff about courses that interest you - write your questions beforehand
- Get a student perspective - speak to students studying courses that interest you
- Collect information/brochures
- Ask about industry based-learning (IBL) opportunities
- Ask about international study opportunities – these are becoming very popular
- Consider transport issues; is the campus accessible from where you live?
- Check the environment where you will study; will you be happy there for three/four years?
- Consider the facilities/clubs offered at your preferred institution
- Consider visiting a rural campus, especially if you think you won’t obtain a high enough ATAR for a metropolitan campus. ATAR’s are often lower and they often offer more personal assistance, accommodation, and a lifestyle which will suit some students.

IMPORTANT NOTE: If you plan to apply for a course involving an interview/folio presentation/ audition as part of the selection process you may be asked what you learnt or found of interest about the course at Open Day. Attendance is therefore vital.
